Discussion of time line of bond vote and funding of project. Will not have access to funds until early August. Can not get bid book and engineering work started until funds are available, unless town funds project until reimbursement requests can be made. Earliest plans to get RFP out for bid construction would be next fall to begin work in spring of 2021.

Committee needs to meet with Selectboard to get direction and action as to continuation of current committee members, and how the board sees the project moving forward. Bruce Seely and Josh Maxham would like to stay on with project.

Discussion of inquiry from BACF to share sprinkler system with new fire station. Greg would like to act as a liaison between the fire station building committee and BACF and will meet with Brian Bontrager.

Nancy will schedule Bruce S and Josh for the next board meeting (March 24<sup>th</sup>) to discuss how the board would like to proceed with the fire station project. Building Committee meetings will be determined by the Selectboard.
