**Hartford Solid Waste New Information and Hours**

We have reduced our hours at the Solid Waste Facility in Hartford to Tuesdays and Saturdays from 8:00 am to 4:00 pm effective this week. We understand that many members of our community may be at home and engaging in home improvement or spring cleaning projects. We are asking that our users remain respectful of the current situation and use the Solid Waste facility to dispose ONLY of necessary and essential household waste at this time in an effort to reduce the burden on our facility.

\*Minimize your trips to the facility, consolidate your trips to the maximum possible extent.

\*We continue to encourage facility users to find alternative methods for solid waste management (including contracting with a private hauler for curbside collection) in anticipation that further restrictions are inevitable, which may lead to closure of the facility.

The Town of Hartford is appreciative of your patience and understanding during this time. Please call (802) 295 - 3622 for questions.

From GUVSWMD: You may also contact us for general trash/recycling/food scrap questions. hgillett@swcrpc.org or 674-4474.
