

HAZARD MITIGATION  
PLAN REVIEW & DEVELOPMENT  
AUGUST 20, 2025

DRAFT

Meeting opened at 4:30 pm

Present: Mary Oldenburg, Randy Kennedy, Butch Wardwell, Josh Maxham, and Nancy Robinson.

Paul Kowalski – TRORC

Paul gave a brief overview of the Hazard Mitigation program ie. purpose, additional funding that the town receives through federal (FEMA) and state grants. The Hazard Mitigation Planning process is a way that communities can assess risks and identify actions to reduce the community's vulnerabilities then develop a plan of action to reduce the risks.

Community members involved in re-drafting this plan represent the Highway Dept, Fire and EMS, Planning Commission and Town Office. The 2020 plan will be reviewed and updated during 3-4 working meetings, plan will then be presented to the Planning Commission for review and approval then will move on to the Selectboard for final review and approval. Public input is encouraged throughout the process with active public noticing at the Planning Commission and Selectboard review meetings.

Committee members identified and ranked top hazards at this meeting.

Next meeting date was scheduled for Wednesday, September 3<sup>rd</sup> at 4:30 pm.

Meeting adjourned at 5:20 pm.

Respectfully submitted,

*Nancy Robinson*
