

Bridgewater 2025 Hazard Mitigation Survey

Bridgewater is currently updating its Local Hazard Mitigation Plan. We are seeking input from residents and stakeholders. Please contribute to our efforts by completing this survey and/or attending one of our planning team's upcoming meetings. (If needed, please continue responses in space provided on back.)

1. Name: _____
2. Street of residence or business and nearest cross street or general area within community or agency/organization you are representing while completing this survey: _____
3. Email address (if you would like to be contacted for follow up if needed) _____
4. The previous plan for Bridgewater was adopted in 2020. How do you think your community's priorities have changed since the last plan was adopted? Consider changing demographics such as an aging population, environmental or other factors... _____

5. Have you experienced or seen areas in the community prone to one or multiple hazards such as flood, ice, wind, or invasive species? Please detail below. If you use or own property along a waterway, has the threat of hazards increased or decreased? _____

6. What do you consider a community asset for you, and which protecting and recovering from hazard will be critical for overall community recovery? (ie. landmarks, community gathering spaces, stores, businesses, natural features) _____

7. What types of mitigation actions would you like to see the community prioritize? _____
